2016 Report

Keeping The Boardman Clean, Cold And Beautiful

2016
Boardman River Clean Sweep
Adams Chapter Trout Unlimited
Report

Boardman River Clean Sweep extends thanks to the Adams Chapter Trout Unlimited for their continuing support of our work to keep the Boardman River and all of the rivers in this area the cleanest and most beautiful Natural Rivers in the State of Michigan. We cooperated with many organizations to complete this work.

The BRCS concentrated on the Betsie River in 2016 to remove as many fish hooks, line and tackle plus tree limbs that attract these hazards as we could this year. We removed 100s of pounds of fishing line and tackle from the Betsie River this year. The good news is that we found less fishing debris along the entire Betsie River than we found in preceding years.

We did 25 separate projects in 2016. These are but a few of the photos of the work we did this season on the Boardman and many other rivers in NW Lower Michigan.

We started with this illegal dumpsite near Sabin Pond in mid-March.

Next we cleared this illegal dumpsite on Ranch Rudolf Road in late March.

We teamed up with the Benzie Conservation District, local residents of Honor and the Traverse Area Paddle Club to clean up the Upper Platte River.

Betsie River Sweep

Again, working with the BCD, we worked on the Betsie River Sweep in Benzonia.

Jordan River Cleanup

Betsie River Tree Trimming Project

North Branch AuSable River Cleanup

Upper Betsie River Dock Removal

Downtown Boardman River - National Cherry Festival Cleanup

South Branch – AuSable River Cleanup

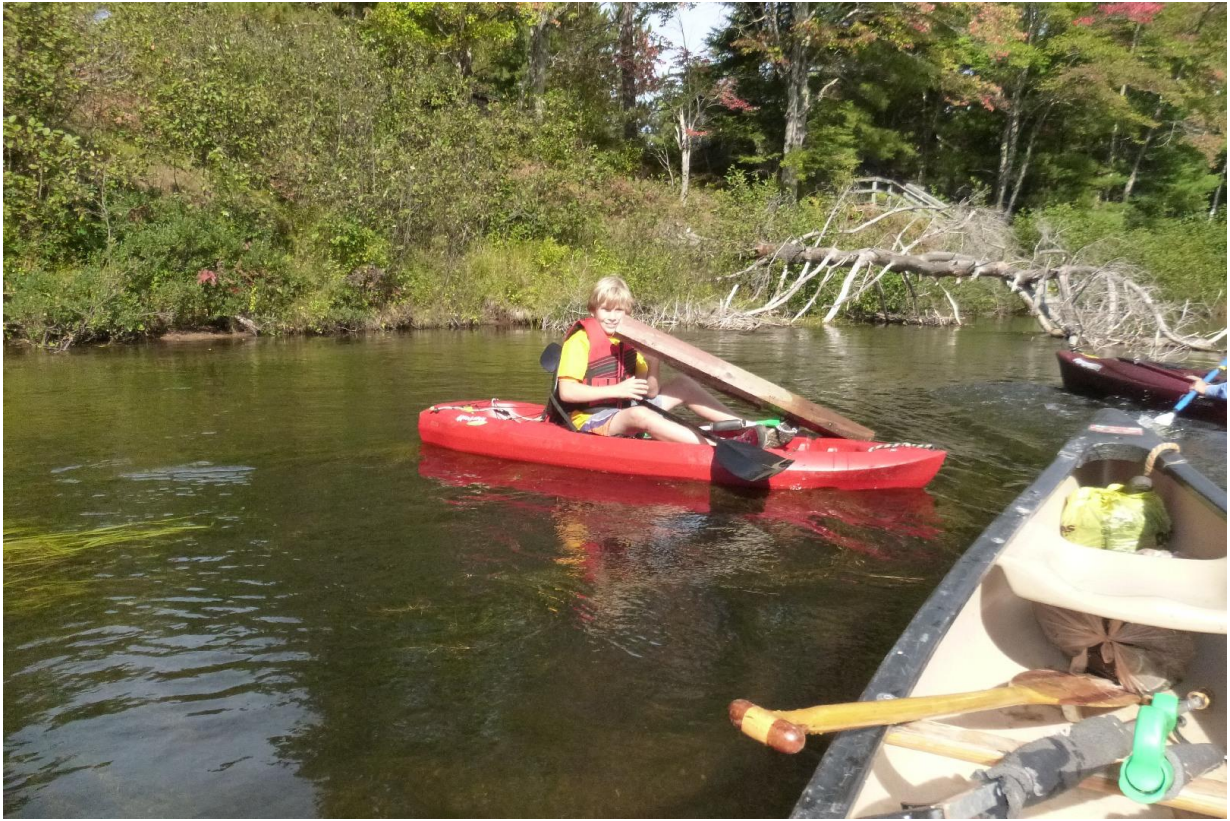

6 River Sweep – Sturgeon River with Sturgeon River Sweepers

Upper Manistee River – M72 to Yellow Trees

We put the kids to work, too.

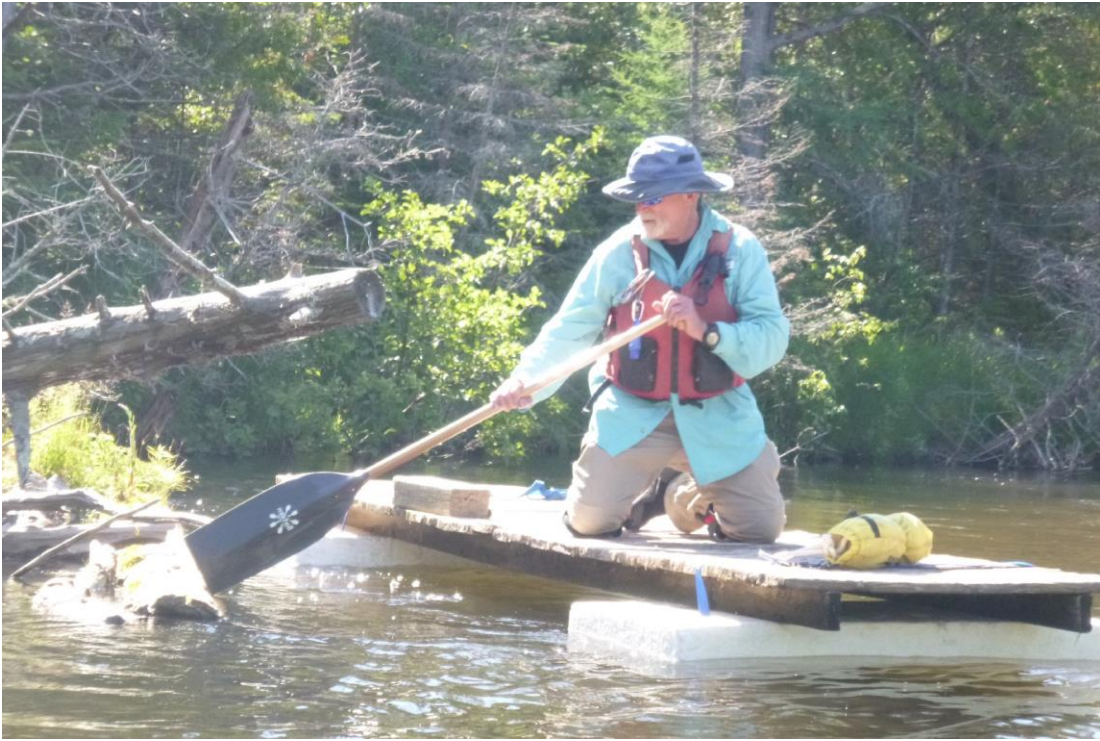

BRCS got this new toilet placed at Shumsky Landing by the DNR.

ACTU donated this table. The BRCS delivered and constructed it at Shumsky Landing.
